

Description and functionalities

KSI7700000.001 - white
 KSI7700000.002 - black
 KSI7700000.003 - gray
 KSI7700000.008 - red

opera is a remote control with a revolutionary design, both ergonomic and minimalist. Thanks to the bi-directional communication, **opera** is not limited to the possibility to activate up to 7 different scenarios, but also to deliver in any moment the system status (armed, partial armed and disarmed) visualized by one of the three LEDs positioned on the upper part.

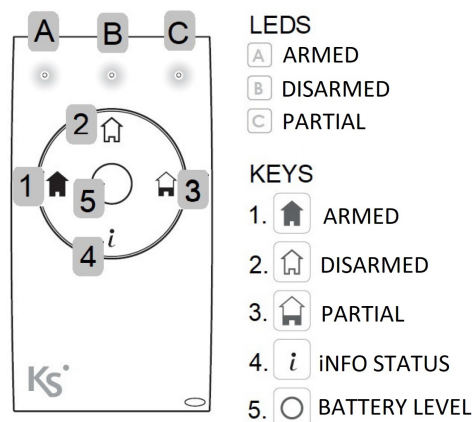

The activation of any scenario is confirmed both visually (through the relevant LED) and by means of a vibra-motor device.

The implementation of a complex encryption algorithm guarantees a superior Security level and contemporary allows the utilization of the same remote control's device even with different installations (i.e. main residence and sea cottage).

opera is available in the four Ksenia institutional colors: white, red, gray and black.

Any key of the remote control can be pressed to activate the PANIC/SOS function, triggering a series of actions such as voice calls, SMS, e-mail, whose addresses, as well as the actions to be performed, are preconfigured in the lares 4.0 control panel.

In this mode, the PANIC/SOS signal is also sent by pressing the central button of **opera**, which normally indicates the battery status.

PANIC/SOS function (any key)

CERTIFICATIONS

- Europe - CE, RoHS
- EN 50131-1:2006 + A1:2009 + A2:2017 + A3:2020
- EN 50131-3: 2009
- EN 50131-5-3:2017
- Grado 2 - Classe II
- T031: 2017 + A1:2018 + A2:2022

Technical characteristics

- Power: 1 Lithium Battery Type CR2032A included (up to 6 years max. duration time)
- Operational Frequency: 868 MHz Band
- Operation Range (open-air): up to 400 m
- Operative Temperature Range: from +5°C to +40° C
- Overall Dimensions: 30 x 58 x 15 mm (hwxwxl)
