

Description:

This kind of HDMI Extender (<https://www.casview.com/HDMI-Video-Audio-Extender.html>) by CAT-5e/6 cables use only one of CAT-5e/6 cables to extend the HDTV display up to 30 meters for 4K*2K and 1080p, This Adapter not only breaks the limitation of the HDMI Cable (<https://www.casview.com/HDMI-Video-Cable.html>) transmission length, but also has more flexibility and convenience in cable construction.

Features:

This HDMI extender has many features that enable to perform in a superior manner, Among those features you will find:

1. One pair as full functional module, no need of setting.
2. CAT-5e/6 cable can substitute HDMI cable to achieve long distance transmission.
3. Follow the standard of IEEE-568B.
4. Transmission distance can be up to 30 Meters for 4K HD resolution and 1080p using CAT-6 cable.
5. Compact size.
6. Signaling rater up to 1.65Gbps in support of 1080p display.
7. HDCP compliant

Operation:

1. Plug the fixed HDMI cable of the sender into the HDMI input source, such as: HD-DVD, PS3, STB etc.
2. Connect the TX HDMI Adapter (<https://www.casview.com/HDMI-Adaptor.html>) Single CAT-5e/6 cables, then the other end to the RX HDMI adapter to both the output of the transmitter and input of the receiver.
3. Plug the fixed HDMI cable of the receiver into the HDMI display, such as: HD-LCD, HD-DLP etc.

Package included:

- 1x HDMI Signal TX Adapter
- 1x HDMI Signal RX Adapter
